

**PACIFIC FRUIT**

PURA FRUTA

*Learn about our lines of Exotic Fruits  
and Dry Tropical Fruits*

## About Us

- ◆ PACIFIC FRUIT offers you pure pulp from the best selection of fruits harvested from the fertile soils of Peru. All of our processes are committed to quality, health, and respect for our environment.
- ◆ The methods used in the production and processing ensure that our fruit maintains its essential characteristics, including taste, texture, aroma and nutrients.
- ◆ The aseptic process allows the packages of pulp to be stored without the need of refrigeration.

## Aseptic Process

- ◆ At PACIFIC FRUIT, we combine ancestral knowledge on the cultivation of our country of origin with cutting-edge technology for the planting, gathering, inspection, and processing of fruits, as well as their distribution.
- ◆ Our aseptic technology helps stabilize the product enzymatically and microbiologically, due to exposure to high temperatures for a short period of time, which makes it possible to store the product without refrigeration, thus facilitating its transport and storage.

### CERTIFICATIONS:

8th Innovaton Contest Expoalimentaria & Adex:  
**1st Place** Preserves Food Category  
PACIFIC FRUIT Golden Berry 100% Pure Fruit

## Agricultural Passion

- ◆ Our crops come from seven different Andean zones of Peru, each with the most ideal characteristics for their cultivation.
- ◆ We use the best practices for respecting biodiversity, ecology, and sustainable development. At PACIFIC FRUIT, we are friends of the fields, and the fields are friends of ours.

Lucuma plants are being grafted. This picture was taken in the the garden center of PACIFIC FRUIT, this plants are going to be donated to the farmers, part of the SHARE VALUE PLAN of PACIFIC FRUIT. They need up to 8 months to be transplanted to the field. The lucuma is consider the Inka gold.

# Products
